

CERTIFICATE

Certificate Nr. 2018-092

We hereby confirm PPS. Imaging GmbH
Friesenweg 4, Haus 1-3 in 22763 Hamburg

the climate effective compensation of 144 tons of CO₂-emissions, which have been projected for the year 2018.

The CO₂-emissions are compensated via the KlimalINVEST project portfolio. The supported projects are officially registered, follow the Kyoto Protocol and are additionally certified according to the strict requirements of the independent non-profit Verified Carbon Standard Association (VCS).

In 2018 PPS. Imaging GmbH will therefore achieve climate neutrality within the calculated range of energy consumption.

The issuance and cancellation of CO₂ emission rights is carried out through certified international registers and is officially confirmed.
